Be stylish and green with SAKitToMe!

Say no to plastic and pop one of these fashionable fold-up bags on your keychain!

We all have our favourite wardrobe staples – the little black dress, the tailored blazer, the great fitting pair of jeans, and now the new must-have accessory SAKitToMe – soon to be seen on the arms of women across Australia.

Doing your bit for the environment means thinking outside the plastic bag, and this season it's all in the pouch. SAKitToMe is the brainchild of two busy mums who have juggled their day jobs and their families to bring you an eco-hero on a key ring that can hold up to 10 kilos – so you can say no to plastic bags wherever you go.

Understanding that life can be hectic the SAKitToMe is compact and clips to your keys – meaning you will never be caught out at the counter again!

Unlike current eco-bags, SAKitToMe is a stylish hold-all coming in six bold geometric prints and designed by homegrown talent. And it's not just for shopping - the water resistant, durable bag can be used for swimming, sports, at the beach, picnics – a true versatile wardrobe staple!

AVAILABLE AT: www.envirotrend.com.au

RRP $8.95
