

SMALL WONDER

Flowers, dots and stripes juxtaposed against colours like deep red, fuchsia, hydrangea blue and wild rose pink catch the eye and accentuate Kenzo Kids' line of urban gypsy-themed clothing. Highlights include floral printed velour and poplin skirts for girls and trendy corduroy and jacquard sweaters for boys. www.kenzo.com

TRENDSPOTTING

Work some of the season's top womenswear trends into your wardrobe with these suggestions.

BELT UP Who says you can't pair a belt with a gown? Skinny, broad, tied like a bow... belts are probably the easiest to incorporate into your style routine. Make a statement and try pairing a chunky chained belt over a princess gown.

LEATHER Leather is edgy and stylish! Update your look with a jacket, in-season baggy leather pants or, a leather mini. Don't restrict yourself to just black leather; experiment with colours!

GO LUXE Brocades, ornate baroque detailing and appliqué are all the rage this season in tops and dresses. Go full force with rich, tapestry-inspired designs or take it easy with delicate appliqué.

ALL ABOUT THE HIPS If you think a padded skirt or flouncy peplum top will add pounds to your hip, think again. The contrast will make your waist appear cinched in and lend you an hourglass figure.

PULL & BEAR

URBAN COWGIRL Pair a simple top with denim cut-off shorts a la Daisy Duke or a cowgirl-inspired shirt with plain coloured pants and stay trendy without looking like a hillbilly.
