I practically live at the beach in summer. I love Chelsea and Carrum beaches and I went to Noosa in January, so I've been living in my bikinis. This is a new one from Seafolly. I like the frills and the spotty pattern because they're fresh, fun and out there. I still follow fashion on the beach and wear a bit of jewellery, thongs and a beach bag. That's all I need. I like this bikini because it's fairly plain on the bottom and all the frills are at the top. Frills on the bottom can make you look bigger, so it's best to keep them on the top.
